Wouldn't You Say?

Nice and cosy in your home? Oil furnace working well? Picket fence gleaming white, tipped with green? No slats missing? If you have to chop wood, it's probably for your fireplace. That's life. But not everybody has it so good. Belleville is a city of marked contrast.

Sometimes we forget and complain. But most of us don't have to have a rag stuffed into the window to stop drafts from blasting-through a broken window, such as is shown here. We even give good housing to the blids.

After several months witting for special design and construction, new highway directional signs were erected at the corner of Pifeacle and Bridge Streets today. Last year the same signs were strong scrols the street on cable but this proved unsatisfactory and a rigid crossom type of structure was ordered. The signs point the direction to highways 401 and 37 (straight ahead) and a left turn to highways 2 and 14.

Really!

You Don't See Snow. It's Glorious Summer.

Dream along with us a while. You're sitting in the stern of Dream, a tall cool on the stern of Dream, a tall cool on the stern of Dream, a tall cool of the stanct of the Barcovan, You can hear the swisn of the breakers as they rush

over the long stretches of sand to disinteg-rate like the cubes in your tail cool one. You couldn't care less about bombs, beatles buzzing about your ears, or that income tax deadline. Good Old Sol. Warm, warm,

warm. So nice. You hop into your motor-boat and head for the Island to lie on the soft caress, of the sand, soaking up its luxurious warmth. Then it happens. Blasted cold, freezing ugly snow curis up and over

your bow and smacks you in the face, You're not dreaming any longer, So, who cares, Spring is just around the corner, And until then, just go on reading about Snoopy and the Red Baron.

DEBRIS ON ICE

Throwing debris on the Ice is poor sports-manship and can result in serious injury to any-one on the surface at the time. This practice has ended some careers before they have start-ed and delayed many games. Take pride in your rink by not throwing things on or old the ice.

March didn't exactly come in like a lion yesterday for the Quinte district. But there still is a lion's share of work to be done clearing winter's hangover — as the snow chunks held by these youngsters demonstrake. They were disloiged from a Believille street by public works crews taking advantage of mild weather for some pre-spring cleaning. A Notable Occasion

What an experience it is to see a stage performance of such color, warmth and technical brilliance as Les Feux-Follets. The long-awaited visit to Belleville of the

rated French-Canadian folk dancing group was a happy event for both audience and performers. Although they have been touring without a break since Christmas there is a spontaneity about the dancers and singers that infectious and which communicates itself instantly to audiences everywhere.

Their demeanor offstage is equally to be admired. The young performers are friendly, interesting, and have that special quality of awareness that gives added meaning to life. This is the essence of Les Feux-Follets' success as interpreters of the Canadian scene in song

and dance. If the kaleldoscopic quality of Canadian life thus far has escaped many who feel this country has little-in the way of culture and ethnic variety. Les Feux-Foliets, under their artistic director Mitchel Cartier, have gone far.

artistic director Michel Cartier, have gone far to correct this impression.

Accidented in Europe and the United States, as well as a home, the Canadians will perform at Expo. Significant too is the fact that a tour of the Soriet Union and other that a tour of the Soriet Union and other cartiers, and the state of the Soriet Union and other later. Already, the group enloys a close friendship with members of the famous Molseyer ballet and Rumanlan State dance companies. There was, unfortunately, one jarring note. Welcoming the audience. Many? Jack Elfas. spoke both in French and in English, His French and In English, His

Hectic Age

It was poet lawreate John Masefield (of all people) who coined the phrase about life being 'one damn thing after another."

Certainly for most people these days life is a complex business. The so-called-goiden age of ledsure that its supposed to be upon us is largely a myth. He is a rare person indeed who can claim to have any real ledsure in this frame and the people with most of the people with most of the people with most of the people with the people wit

Perhaps the people who work on rernaps the people who work on production-line type of activities are the most fortunate in this respect. They have a healthy no-nonsense approach to life, while the more magagage" or interests one has, a professional man for instance; the more likely he is to have

problems.

A recent Mayo clinic survey lends credence to this idea. Among patients studied a relatively small nine per cent among rail-roaders were found to have neurotic tendencies, while people in various professions ranged all the way from 16 per cent to 55 per

Take it

As it happens, we can't. Making whisky that goes down this easy is a difficult job. It means selecting whiskies from our five distilleries across Canada (only Seagram's has five, by the way). Then blending and re-blending them to get 5 Star's easy taste. How can you find out if the taste is worth all the trouble? That's easy, too.

5 Star. Easy whisky.

French Without Tears

The day when an audience in any redominantly English-speaking community Canada can listen to an address in French, d perhaps even understand it and not feel nbarrassed (because . . well you know lingualism is not for us!) will be one worth

ebrating.

Believille has good reason to take this to urt. And it is surely ironic in the light of the recent visit of Les Feux-Follets that the name of our city should be French and yet it boasts few who are fluent in both English and

So when we hear French spoken before an lience of both English and French Canadsource of both sngusa and French Canad-ians there is no need for alarm and despondency—or even laughter. And all the more so when it is one of our own who is speaking in the language other than his

Because look at it this way. When a French Canadian gets up and says his piece, in clear and authoritative English before switching to French we feel honored. And obody has the gall to do anything other than listen attentively. Nobody Jaighs in the wrong places for instance. And if someone does the rest of us would regard that fellow as a knave

But switch the roles, and have an English

Canadian speaking French, and the audience responds with laughter.
It should not be thus. Perhaps what we need is a crash course similar to that being given conductors on the railroads, so that we may become more conversant with the French

French, incidentally, is one of the language.

French, incidentally, is one of the languages of the art world as well as of international commerce. Thus it was not surprising to learn from a member of the cast of Les Feux-Follets from a member of the cast of Les reun-that when the Moiseyev ballet company Moscow and the Rumanian State -company were in Canada last year the vi nada last year the visitors Canadians in French as d with the Cana ell as in English.

Look Who's Got The Bug In Trenton And Belleville Now!

Manfred Koechlin and Alfons Micke, that's who!

And who are they?

Well, you've probably noticed their shop in Trenton un-der the Auto Haus Bell-Ton Ltd. sign. They've been so suc-cessful that they're hanging up another sign in Belleville. Same name, same service and the same great bargain

So what's in it for you? All the new 1967 Volkswagens, Sedans, Station Wagons, Fastbacks, and Station Buses. The whole line-up.

And when you come into Auto Haus Bell-Ton Ltd. they don't mind if you browse around, even if it's just to get out of the rain. Because they have enough experience to know that even if you don't buy a VW today, you may get the bug

But Auto Haus Bell-Ton is more than just a place to buy a Volkswagen. It's a good place to get part of one. They have all the VW parts you'll ever need. From fenders to oil filters, And they have a staff of factory-trained mechanics to service your car.

So if you ever have any thoughts about Volkswagen, see So if you ever have any thoughts about Volkswagen, see fancy, Just Volkswagen, Volkswagen parts and good service. At reasonable prices Why not drop in today?

General Vanier

Governor-General George Vanier left his wn special mark upon Canada. A soldier and plomat, he was also a man of noble bearing of character whose first concern was the cline of his fellow man.

His distinguished service in the army and

His distinguished service in the army and his career in the diplomatic service are known to most 'Canadians. As Governor-General he lent distinction to that office.

As Her Majesty's representative he sought encourage the new Canadianism which braces not only pride of race and ancestry

but also a sense of oneness, of unity.

Family life was a theme the Govern General believed in implicitly. In his speeches he continually emphasized its importance and the Vanier Institute of the Family was the practical embodiment of his interest in this phere. Children were very close to his heart nd the parties given at Government House will be long remembered by a host of Canadian youngsters.

Although in failing health General Vanier never spared himself in the service of the Queen and of Canada. In his duties he had the

unfalling support of Madame Vanier, herself a familiar figure at public functions.

The first French-Canadian to hold the office, General Vanier served his country well. He will be greatly missed.

A World of Problems

In this swiftly-evolving world there are ems enough. The problems of the world, it has been said, are the problems of the spirit. In other words, these worries and anxieties

Young and old, all suffer to some extent, and from the same basic things. Like neglect and deprivation. The young feel isolated, out of touch with their parents and the adult world in general. The elderly for their part, ss they are still fit and active, also feel out of things. But young or old the basic human needs of love and friendship and concern one for the other, not to mention requirements of and shelter, are the same.

food and shelter, are the same.

For the young the start they get in life is all important. There is no denying that the poportunities afforded some, and the degree of parental control over them, for better or worser vary from home to home. Nor is there any doubt that lack of things to do, lack of

Education and Travel

This is Education Week in Canada at education is.

A dictionary definition of education sees

tt as "the process of training, and developing knowledge, akills, mind and character."

Educative is a continuing process, and the early years at home are just as important in developing knowledge and positive attitudes toward learning as are the succeeding days at

achool and university.

Thus education is all-embracing, involving not only knowledge, but also the ability to use that knowledge and further it, to think positively and use one's talents creatively.

Both home and achool then are vital to the learning process: But there is another dimension to it. And that is the world of travel. To travel is to further one's knowledge while at the same time gaining insight into the ways of the world and its people.

And that is why provision for travel in the school system might be expanded — to the advantage of young people. Not that there is much provision for travel as such, other than in the exchanges between English and French-speaking students, and in the arrangements currently being made for students to visit

But what a pity that virtually all the emphasis in education is on classroom instruction. It has ever been thus, and such travel as there is has been mainly at the student's own expense or in student groups during summer vacation. The Americans go in for the latter much more than their counterfor the latter much more than their counter-parts in Canada, and this may give them a better perspective than is afforded young Canadians. On the other hand the latter benefit from more effective instruction at the classroom level vis-a-vis the United States

system. The British have taken one interesting step toward promoting education through travel. This involves sending high school students to Europe in a ship fitted out as a floating school. Tuition is provided on board, and travel completes the learning process.

process.

In Kingston student members of the naval reserve are being afforded an unusual opportunity at the moment. The boys have been enrolled as reserve assistants in an operation to move three vessels from Halifax Brough the Panama Carial to Esquimault,

A message to ambitious young people about Apprenticeship Training.

Like the song say, it's funny how time slips away, opens to the status of fully-findepel journeys obscuring that's a pity, because the infectory paramiproptant. These are the pears when you can blaid a pareer and a financially soour finters. But to do it, you way to look obtach;

Can anyone qualify for Apprenticeship?
Not quite. You must be 16 or older and have at least a Grade 10 education, with additional education, such as a high school diploma, you could have a shorter apprenticeship and enjoy higher earnings sooner.

Seal Hunt.

The annual seal hunt in the St. Lawrence is off to another start amid conflicting reports as to its desirability on either humane or

mercial grounds. A Canadian Press report from Ottawa says the official report does not support allegations of inordinate cruelty in the annual al harvest

Fisheries Minister Robichaud is quoted as ng: "Almost 100 per cent of Canadian saying: "Aimoss 100 per cent of Cananan sealers are extremely careful to kill as humanely as possible." The minister and department officials believe fewer than half a dozen incidents are at the root of the hue and cry that resulted from alleged inhuman methods of slaughter employed in past hunts. And these involved mainly inexperienced hunters.

This year regulations have been tightened.

These involve the type of clubs and rifles used to kill the seals, and the methods employed to

ensure the animals suffer as little as possible.

Meanwhile, among those campaigning against the seal hunt is a body called AID, standing for Animals in Distress. With registered offices in Montreal, it is calling on the government to declare the Gulf of St. Lawrence a sanctuary for harp seals as it apparently has already done for hooded seals. It suggests also that Ottawa should provide other forms of employment for the hunters in the event of such a sanctuary being

AID has distributed an eye-witness account of the 1966 seal hunt by Brian Davies of the New Brunswick SPCA in which he says:

reason why sealing should continue. "Every sealer we spoke to admitted quite freely that he feit the seal hunt was cruel and said he

he felt the seal hunt was cruci and said he wished there was some other employment for plan during this time of year. On the plan during this time of year. On the matter how attrict the regulations, the St. Lawrence seal hunt cannot be viewed, as saything else but an inhuman singular for commercial gain. It may be a way of earning a living of sort (seconding to Darlets the hunter of the plant of the plant

In the 1940 the singing team of Nelson Ethy and Jeanette MacDonald drew movie audiences all over the world.

Canadians have special reason to regmenter Eddy in Rose Marfe, with Its Rocky Mountain setting and romantic musical scort. In more renest times, despite advancing years, be was a tireless performer on the concert circuit. In the past year or two he fulfilled singing engagements at the Royal York in Toronto.

Only last week the singer said he planned to continue working "until I drop" because "I love it."

Now he has passed from the access, after suffering a stroke as he sang before a Mismi Beach audience. He will be remembered though as one whose voice and personality panned the generations. Some of the decisive considerations are flow of traffic as regards both volume and speed, amount of parking space, ease of eatry and exit, adjacent shopping attractions, nearness of residential districts and the outlook for long term appreciation.

It was positive answers to their research that decided major corporations like the Bank of Montreal, Stradwick Tile and Hertz Rent A-Car to express preference for the block on North Front south of College.

The comparative slowness of traffic at this junction (a ris-

ing 50,000 cars weekly), the high percentage of home owners and numers turning into the Parkdale and North Park residential areas and the nearness of schools cannot be duplicated elsewhere.

Major corporations will be bidding for the 130x220 lot now occupied by Aleck Hall Variety Store between Stradwick and Hertz. They will want the 130' frontage for front or around building passage and the 220 or more depth for parking.

An audited accountant's statement shows a net profit from the store and triplex which will enable a local buyer to carry his investment until rising demand for this premium land enable him to sell at a substantial profit. The owner, due to health, cannot wait for the future. He

CARING

Without you, we don't have any business.

So, if we want to continue to be successful.

as we have been for 40 years, we better CARE ABOUT YOU.

We better care about how we serve you, about what we serve you, about being fair, honest, and dependable

When you get right down to it, you're the boss at A&P. And it's always good business to be good to the boss.

Not every store feels this way. A&P does!

Stores have two meat counters? Stop won-dering. It's mainly because of the conve-nience for you. Perhaps you're the sort who nence for you, Penaps you're the soft who enjoys self-service. You'll be impressed by the wide variety of meats and individual cuts available at the handy self-service counter. Maybe you would rather be served by an experienced butcher. If so, there's a pleasant surprise awaiting you at the personal service counter. Dominion's friendly man behind the meat counter will be glad to put his skill and the right cut.

Most grocery stores are like the rest of the bunch...

Don't you believe it! They may appear to be alike, but tell us what other food store offers the following—grocery prices that remain the same day in day out, week in week out? Perishable items (such as meat and produce) that are effective from Monday to Saturday? That are open until 10 p.m. every night? We could go on and on but basically we are trying to point out we are different. We try to offer all the things that you as a customer want—we think we have it!

the articles handed out "free" in exchange for the stamps.

The Canadian Association of Stamp Companies denies this. In a brief issued last November the sacciation pointed to numera studies carried out in the United States in the state of the state of

per cent of their merchandus from about 230 Canadian companies. "The stamp industry, in a very real sense, is one while sepands markets and creates jobs for Canadians," says the brief. Perhaps Premiler Robarts has come to the same conclusion. The public, however, will still recognise a bargain when it sees one, so that any tendency for prices to rise will not evok a sympathetic consumer response.

A Prune Is Good for Apples!

Frince Edward County applegrowers turned out on the Bloomfield farm of Don Ross to see pruning techniques demonstrated by Bob Wilcocks, (above), and Dy. Aleck Hutchison, both of Vineland. The demonstration attracted a large number of farmers involved in apple-growing — one of the county's most economically important crops.

This is a continuing problem for the western world where food production is concerned. Millicon in Asia and in other regions started of resources will die because of it. The west earnot afford to be complicate either. New sources of food must be found if shortages are not to be complicated in the world.

Roberts Quits Politics

Redistribution of both provincial and deral ridings has given rise to some curious

The latest involves the departure from provincial politics of former Minister of Lands and Forests Ricks Roberts. After 31 years in the legislature, 11 of them in the cabinet, Mr. Roberts is taking the unusual course of resigning at a time when election speculation is rife.

While the logical thing would have been to await-dissolution of the House, Mr. Roberts says his retirement at this time will enable other members to start making plans for the

next election.

One reason of course for Mr. Robert's, decision to leave politics and return to law practice is the fact that his riding has been eliminated by redistribution. But there is a matther anomaly in the fact that confirming the fact that the redistribution of the reason of the redistribution of t

By Geo. H. Carver Sports Editor

Joe formed what he called at the time a team he dubbed the "Varnity Grads," a name he figured would carry some weight but which later was chang-ed to "North York Grads."

But Joe does not believe that one swallow ince either play or financial wise.

I wonder how that figure stacks up with th

ne's statement revealed that his Grads did not the college, junior grads and reinstated profes-status he anticipated at the start of the season.

"Most of the time," he is quoted, "we had about twelve players on hand for the games. We had shout twelve players on hand for the games. We had soon gays working shifts, others who couldn't get away from their jobs for road trips and a few more who didn't show all the time. We lost neveral players. A couple turned pro. A few more quit."

He said that Gerry McNamara was the Grads big. 1 star. The former St. Michael's junior and pro goalie played a couple of games in the Eastern League be-returning home.

Regardiess of that \$15,000 deficit Kame plans cerule the Grads next year. He hopes, he says, ork out a more advantageous arrangement with cas and add a few players,

He says if all the players who live in Toro play for out-of-town teams were availal Grads would be one of the strongest teams league.

"Eight we ten players travel from here to other teams," he says. "Many senior players have carpet-bagged around ontario, playing wherever they could get the best deal. We weren't that far out of it this year, With about four players we could have a strong contender next year."

While the North York Arena management had been it to the Grads, Kane sald II must realize that senior sey is not a money-making venture. "We pay them e rental than any other attraction and they get the ting and concessions."

"They need to understand that senior bookey is dif-not from peewee bookey." Kane says. "We provide tratainment. The rink has more than 2,000 seats; they at have been put there for something."

Trouble in Aden

In Britain's troubled South Arabian tectorate of Aden, terrorism continues nabated and it is not surprising to learn re is concern as to what may happen once

ependence comes in 1968.

Both The Times and The Daily Mail say the British government has decided to keep troops and planes in Aden after independence until the South Arabian Federation demonstrates control over the area. The newspapers say Britain will also urge the United Nations to send a peacekeeping force to help the new

The latter idea is a good one, aimed as it is at maintaining some semblance of peace and stability between the many rival factions, after the manner of the United Nations peacekeeping forces in the Gaza Strip and

Whether it will gain favor is anoth matter. United Nations resources are strained heavily, particularly with the Soviet Union refusing to contribute either men or finances to peacekeeping missions. Russia views itself (albeit with considerable amugness and selfrighteousness) as a non-colonial power, conveniently forgetting its domination over formerly independent nations in eastern Europe and the Baltic region, and is content to let Britain and the United States (in Viet Nam) handle such problems thems

Aden consists of the port and colony of the same name - an enclave within the larger tectorate area. Together they form the Federation of South Arabia. There are 17 of protection with Britain.

den's significance for Britain lies in the fact it is a strategic port and communications centre for the oil-rich region. To withdraw from it completely would be a heavy blow to British interests there. However the indica-tions are that Britain will seek to retain consibility for its defence, for a time at

responsibility for its defence, for a time at least, following which arrangements might be made with the new Government to permit use of the base by Britain. The region has iong been a trouble spot. Dissident tribesman and agents operating across the Yenen border have conducted sporadic variance against the British. For the sporance warrare against the British. For the peast four years terrorism, attributed to nationalist groups with outside support (Egypt is believed strongly involved in these events) has taken the lives of many British

and Arab soldiers.

In the last few days a British civilian was abot dead, and two British soldiers and eight Arabs were wounded by grenades. It is the same pattern of events as occurred in Cyprus some years ago, and one to which Britain must nmit much of its resources in this period

Women Drivers

With 74 million private cars registered in North America, everyone—is talking about building safety into the cars. But few, says Julie Candler, seem to be concerned with building safety into the driver, particularly

women drivers.

Mrs. Candler, who is regarded as the foremost authority on women drivers, outlines her views in a book "Woman at the Wheel." published by Paperback Library of New York.

Charles Holland of the 254th Battalion is spending today in She points out that although there are more than 40 million women drivers in the United States and Canada, "most women don't know the difference between a spark plug and a carburetor." Whitby,
Frank Phillips has returned to his home in Minneapolis after to his home in Mimeapolis after visiting relatives here. Frank J. Kennedy has return-ed to New York City after visit-ing relatives here. Hark Adamson spent yester-day in Napance.

ranks of new car drivers every year, she says.

They really want to know what makes a car
tick, but no one has taken the trouble to tell

Belleville certainly cannot be faulted on Belleville certainly cannot be faulted on this score, as a recent news story in The Intelligencer indicated. Motor mechanics is one of the courses at night school at the Collegiate and Moira Secondary and there is at least one young woman driver taking advantage of it.

As Mrs. Candler puts it: "Every w wn on repairs and how to lay down the law teenage drivers."

to teenage drivers."

The latter aspect of car safety is a formidable enough topic on its own. Treenage drivers way from being safe and careful to precises and accident-prone. About all adults can do in this regard is et a good example, and urge the younger drivers to take advantage of any drivers-training courses that the available.— in the schools for instance.

Regardless of sceptics, dichards and others of the critical he-poiled, the city entry into senior hock-ey has proven beyond the shadow of a deaht that fundom generally was hungry for this type of the sport.

This opening night crowd of upwards of 2,400 fams imost staggered the management — and the club. However this was not at the time judged as an omen of things o come, but rather curiosity as to what calibre of team ould represent the city.

They came — they saw and they were conquer-ed. Unknown to all at the time a silent stamp of ap-proval was given the team and from that time on the fann have showed a levally and interest that has sur-prised not only the Mo-Hawks but other clubs of the

They were wrong. An onitizading instance of this was noted on the Torotdy of Christman week when some 1,206 fans turned out. This the week when the holding drain on the general walled was exceptionally heavy.

Subsequent Tuesday night frays have been much thoug the same line. Unofficially this department would venture the guess that the average attendance of the Mo-Hawks has been in the vicinity of from AMB unwards.

For the first year of operation the Mo-Hawks have done well. General Manager Bab Temple and Playing Coach Floyd Crawford iced a club that, play-ing logither for the first time, deserves the kndos for finishing where it did, win, lose or draw.

Nucleused with hattie-scarred veierans believed by eager beaver youngsters including a more or less sensational goalle, the Me-Hawks came through with an overall performance that has rightly earned the knoss of the fans.

I this is true something will have to be force—and quickly—to rectify the situation. The world fair — and the entire economy of the country—stand to lose millions of dollars if Americans are going to emillions of dollars if Americans are going to from Canada, regarding accommodation. This is a facility Dail long since should have been working smoothly. That it apparently is not is a matter for serious concern.

Medical Needs

Moira Secondary School students are setting an excellent example of youthful responsibility with their project aimed at raising \$2,000 to furnish a "tengager" room at the new Belleville General Hospital.

The campaign is a centennial project organized by the school student council and is

Not so fortunate are those in areas of the orid where hospital facilities are sadiy cking — in some of the smaller islands of tacking — in some of the smaller islands of the Caribbean for instance. Recently an official of the Ontario Department of Education received a letter from the minister of social service in the island of Dominica, pointing out that-the X-ray machine in the kland's only hospital had broken down and surgery had been suspended indefinitely. Nobody on the island knew how to fix the machine and the nearest technician was in

we care

should we

If we didn't, we couldn't honestly say WE CARE, Could we?

You see, before any product is allowed on our shelves. we've checked it out pretty carefully.

We've checked the company that makes it. We've checked to be sure the product is all the package says it is.

If you ever buy anything at A&P you're not happy with, you don't have to bother to write a letter to the company that made it. Just tell your A&P store manager.

He'll give you your money back.

We'll get in touch with that company for you... and for us.

That's A&P's guarantee. No matter who makes it. if A&P sells it. A&P guarantees it.

Not every store can offer you a guarantee like that. A&P can ... and does.

Shouldn't A&P be your store?

Canada ioday, Without men to maintain a burgeoning economy to keep production at a high iterd, and the wheels of industry turning, the future would be black indeed.

And all this despite the impact of automation, increased industry the contraction, increased industry the contraction of the contrac

Canada has an alert and competent hister of Manpower in the person of Quebec's Jean Marchand, and he may well find merit in a suggestion made the other day by David Archer, president of the Ontario Federation of Labor.

In an address in Trenton Mr. Archer said Canada needed a well-defined manpower policy to solve the problems of management and labor. He did not elaborate, but strikes of various intensity in recent years have demonstrated only too clearly that such

Mr. Archer was specific in one regard. He Mr. Archer was specific in one regard. He said management seemingly had never been able to tell the Government what its immediate or long-range needs in manpower were. The problem had been solved in the past by taking the cream of European labor for the skilled trades, but many of these countries are encouraging their former citizens to return, to

Certainly Canadian industries can ili afford to lose skilled men. Our educational system is trying to meet the needs of industries with vocational and other necessary programs, but the demand outstrips the

supply.

The country also loses additional workers as well as professional men to higher-paid positions in the United States. Thus if can be seen that concerted action is needed on several proposal to serve industry, men of the proposal to serve industry, men of the proposal to serve industry.

One move in this direction is the effort being made to bring back Canadian students at universities abroad, have them complete as universities abroad, have them complete as universities abroad, have them complete as universities as another. The proposal pr in the past.

Airport Study

The establishment of a commercial altroit is a project we have suggested on a number of occasions as being necksary to the furtherance of the economy of the Quinte area, as well as providing swift communications with other centres in the province and bewond.

The suggestion are, as well as providing pridit communicates, and the concurry reporting and beyond.

As an economic proposition such a facility and the such as a such provided and the such as an economic proposition such a facility and the such as a such provided and the such as a such provided and the such as a such provided and the such as a such position and the such as a such provided and the such as a such position and the such as a suc between Toronto and Montreal.

But passenger traffic is a likelihood as the area grows, and, the economic tempo increases. We have always considered it, a formation of the area grows, and the economic tempo only communications, that the Quinter area only communications, that the Quinter area of the contract and the contract area are proved for example from such large centres as Rochester in northern one with the contract area of the contract and area of the contract are are all the contract are and the contract are and the contract are are all the contract are are all the contract are and the contract are are all the contract are area of the contract are area of the contract are area of the contract are area.

Situations of this nature always bring out

Situations of this nature always bring out the best in popels. Men and women invariably identify themselves with those in adversity — and particularly with children. The work of the law strange then that the converse is also true. When there is no problem to be faced, when all is right with the world why are there so many divisions in it and among its peoples! Why is then such a thing as the believe of the such as the such as the such as the best them such as the such as the such as the such as the best them such as a surprise to learn that 80 sec.

It may come as a surprise to learn that 90 per cent of parents strike their children at

per cent of parents atrike their children at some time or another. Dr. Harvey R. Alderton gave this figure in an address to the Unitarian Fellowship of Northwest Toronto recently, Much of it of course is judicious use of spanking asia means of enforcing discipline, and in the belief that to "spare the rod is to begold the child." However, Dr. Alderton poll the child." However, Dr. Alderton that white spanking is widely used acress amove effective ways of dealing with

a child.
"Striking is an outlet for anger in parents," and with a normal child who feels secure and safe, parents can get away with it. But it is unnecessary. The denial of privilege is the "etter approach."

The upbringing of children, like life liself, is full of contradictions. But the moral of the Allyson Burleon story is that all children should be treated with equal compassion, in good times as well as in times of trouble.

Being independent, you'll appreciate our initiative in changing the tax form for people in business for themselves who file a TI General. The change wasn't radical.
Nothing that called for a
vote by the shareholders. Nothing that called for a vote by the sharcholders. But it does make things proce efficient. And more understandable. And more understandable we have been described by the fact for one thing. It's easier to read now, and we thinned down the whole tax form by removing any tables that didn't apply premoving any tables that didn't apply premoving any tables that the safe in the near Tax Guide House tables in the near Tax Guide House tables in the near Tax Guide Albert in the near Tax Guide and the them.

The new Tax Guide Tyx, we've changed that too. We realized that a doi-iyourselfer like you needs clear instructions. So we went over everything very carefully to make sure we were communicating clearly. If you read your Tax Guide makes the TI General Tax Guide makes the TI General Tax Form quite understandable. ns should always smile matter what. They should reflect the words of matter what. They should reflect he words of the poet, "My head is bloody but unbowed," or perhaps the recent cartoon showing Opposition, leader Diefenbaker singing a song before convention delegates. And the "words?" "To dream the impossible dream, to fight the, impossible roe, to bear with unbearable

We are not familiar with those words, but they sum up the meaning of courage against odds. As for the big smile — professional though it may be - this is another asset that should not be discounted. Little has been said anound not be discounted. Little has been said as yet of the reasons behind the resignation of Henry Cabot Lodge, U.S. ambassador to Vietnam, Differences between the military and civilian administration groups have been me tioned. However, when interviewed at the embassy in Saigon, Mr. Lodge presented an amiable front, smiling broadly as he talked with newsmen.

Mr. Lodge, who served two tours of duty ambassador in Saigon — and before that was U.S. representative at the United Nations is known to have been interested for some months in leaving the Salgon post as soon as a replacement could be found. He has been replaced by Ellsworth Bunker, who perform useful work in bringing together dissident political elements in the Dominican Republic, and who has been described as America's "top

The departure of Lodge and his deputy, William Porter, both determined advocates of civilian responsibility for the pacification program in Vietnam, is seen as an indication of increasing influence being placed in the hands of the military under General William

Westmoreland.

It almost sounds like the kind of situation one would expect in a South American republic, and not one favolving a stronghold of democracy like the United States. On the face of it there seems little reason why the military should concern themselves to any great extent with the programs in areas freed from the Viet Cong.

Viet Cong.

The task of the military is to carry on the The task of the military is to carry on the fight against the Viet Cong. Former Deputy Ambassador Porter built up a powerful civilian organization to administer the pacification program, and it would be foolish to upset its routine and the experience gained in this

aphere.

It will be one of the tasks of the new envoy, to smooth over any differences that exist between the U.S. military and civillan groups in Vietnam. There are already difficulties enough in fighting the Viet Cong without other problems intruding,

Fifth Director Resigns

This London Life advertisement is specifically for men who plan to marry this year

If you buy life insurance now, you take full advantage of your youth and good health. Read how a London Life policy can actually grow with your family, and eventually provide for your retirement.

On the DAY you MARRY, your fiances be-comes both wife and dependent. You know life insurance will give her financial protection, but here are some facts you may not know:

(1) A London Life Jubilee policy is an amun-ally good investment. It gives you guaranteed cash values, and annual dividends. It is just as safe as high-grade bonds and much safer than

(2) You can take edvantage of your youth and good health. If you are 25 and healthy, you can buy a \$10,000 Jubilee whole life policy, with annual dividends, for \$13.09 a month. If

you are 30, the premium is \$15.27 a month. At age 35, the premium is \$18.11 a month. Change to annual premiums any time you wish.

(3) The sooner you start, the more money you'll save. In fact, if you start when you're young, you can actually double your movery as well as protect your family.

For example, on a \$10,000 Jubilee whole life policy purchased at age 25, you will have available about \$14,170 at age 65—more than whice as much as you have poid in premhants. (This is made up of \$5,580 in guaranteed cash value and \$8,590 in accumulated dividends.)

(4) The dividends above are based on London Life's current dividend rate. Since the amount allotted to dividends is based on the Company's earnings, dividends cannot be guaranteed. However, for many years London Life's record of dividends at been constanting, to the return on profit-basing policies has been excellent.

been excellent.

(5) Dividends on profit-tharing policies are de-clared annually. One reason London Life divi-dends are high it because the Company invests wiscily and profitably. (In 1966, the Company earned 5,93% on its investments—after invest-ment expenses.) Dividends allotted to owners of profit-tharing policies for 1967 exceed S31 million.

(7) You can reserve the right to buy more London Life insurance at regular intervals up to age 40 regardless of health. A small addition to your premium gives you this valuable option,

to your premises give-your cops up, you can borrow from London Life on the cash value of your policy, Quickly and quietly. The interest rate is comproble with boards' regular lending rates and much lower than personal som com-

(9) Your wife should know what life insurance you own and where you keep the policies. Make sureabe gets to know your banker, your insurance man and your legal advisor.

(10) When you call a representative of the London Life Insurance Company, you'll soon realize that he has been schooled to develop an insurance program tailored to fit your needs.

NEW SHELL SUPER MULTIGRADE

One motor oil for all cars, all seasons, all driving conditions

To test new Shell Super's performance at any temperature, a car was driven from White River, Ontario - Canada's coldest spot - to Death Valley, California - where temperatures can reach 120 degrees above. And new Shell Super gave complete protection all the way.

White River, Ontario 1 Temperature 26 below. If an oil becomes too thick in sub-zero weather an excessive load is placed on battery and staters. It can even prevent an engine turning over. Shell Super has a multigrade additive to impart the same cold starting ability as a SW oil in winter.

Shell Super below source or start first time in the

Shell Super helps your car start first time in sub-ro weather. And spares your battery.

Freezing cold winter temperatures: Fort William, Oniario. New Shell Super Multigrade motor oil lubricates effectively in freezing cold winter temperatures. It quickly establishes a lubricating film to protect the engine. New Shell Super flows freely even in a cold engine. This means that you always get top-performance from your car.

Cold, damp weather: Minocapolis. Typical winter conditions that set up a severe problem for a motor oil, short trips and long stops. The engine doean? have a chance to warm up. It cooks down and water vapour condenses inside. Rust can form in the engine, shortdaing engine life. New Shell Super helps prevent engine russing, Bo-cause it has a special and-rust addensity.

as of power.

New Shell Super has a powerful ingredient that elps prevent lacquering.

Keeps pistons clean. Keeps rings clean. Gives you etter performance.

Heavy city traffic: Albuquerque, New Mexico. Typical conditions that face motorists in Canadian cities, too. Conditions that present an engine from warming up properly. When this happens, carbon particles from the burning fuel can unite with moisture in the crankease to form sludge, which can block oil lines. New Shell Super motor oil has a specia lingredient to prevent sludging.

Death Valley, California: One of the hottest places in the world. Temperatures can reach 120 degrees. If an oil gets too thin, it can lead to excessive oil consumption. And high engine were. New Shell Super has the correct viscosity for summer driving and protects engines from accessive wear. Shell Super, proven from White River to Death Valley. The one motor oil good for all cairs, all seasons, all driving concitions.

Should a "non-swinger" visit swinging Britain?

Yes. Very definitely! Because Britain is just as lively or leisurely as you care to make it. It's simply a matter of choice. Some of our passengers fly to Britain for a swinging vacation. Others prefer the things which are uniquely British—the friendity pubs, the gentile countrylide. The pomp. The

Only BOAC with Air Canada flies direct to Britain, and this summer we offer you the choice of up to 12 jet services a day from Toronto and Montreal. And there are several flights a week from western Canada; including direct Western Arrow services to London.

Plan your trip now. See your BOAC travel agent and he'll get swinging with all the necessary arrangements.

Young people are constantly being eminded that marriage and having children and associated family responsibilities are for he stout of heart.

Let it be romantic too if possible — but narriage, the counsellors and all who have ung embraced the marital state will say,

long embraced the martial state will say, elemands a mature outlook.

Others down the years have taken a more reprical view of the male-femals relationship. It has been said for instance that "the chains and a monttimes there, to carry them."

As we recall it was the French moralist La Rochefoucault who enterlated this jaundleed idea of marriage back in the 17th century, and there are many today who would say times have not changed. Nor will they change, the property of the

Ottawa Tax Changes Aimed at Increasing Business Investment

You Ever Think of Getting

We don't sell Easter bonnets but... we suspect many an Easter hat has been paid for with money saved by shopping A&P.

Are we implying that A&P has the lowest prices on all items all the time?

No!

There is no store that can make that claim.

What we are saving is: if you're interested in your total food bill, if you're looking for the best values for your food dollar. A&P is the store for you.

It's a little late for this year's Easter bonnet, but start shopping A&P this week, anyway.

It won't be long before somebody in the house will need a new pair of shoes.

Is this a good reason for shopping A&P? It's one of many.

Recall the apple faced guy who used to ground centre lee for the McFarlands?

It was an open air rink and Johnny stood in the well-ventilisted hoosegaw. The fans rose in their wrath and pelted the sin-ner with growballs.

A snowball in the purs never burt any-one, but wrap the snow around a needle-like icycle and you've got a weapon that goes straight to the point.

Where is Johnny now?

5 Star. Easy whisky.

Minor Hockey

Ski Star Won Battle. Lost War

"Wull Ye

It's nice work, making a whisky that tastes as easy as 5 Star. But it's no easy job.

R means selecting very special whiskies from our five distillieries across Canada. (Only Seagram's has five, by the way). Then blending and re-blending them to get 5 star's easy taste.

is the taste worth all the trouble? Very easy for you to find out.

pendent non-covernment organisation responsible for its provision, were not even receiving replies to their applications. Now there is official word that a serious situation does in fact exist with regard to accommodation. According to Quebec Provin-cial Secretary Yves Gabias, every hotel and motel room in Montreal has been reserved for Expo. That leaves some 30,000 rooms in private have been inspected approved by the provincial lodging service.

As Globe and Mail writer Frank Howard puts it in a report from Quebec City: "If you aven't reserved a hotel or motel room in Montreal for Expo, you had better get used to the idea of sleeping in a rooming house, a tent or sleeping bag."

Acadian & Chevy II

-two great economy cars from General Motors-

They're here today-and here to stay!

It has been recently reported in the press that General Motors will shift production of its popular compact lines, Acadian and Chevy II, to the United States at the end of the 1967 model year,

Some erroneous impressions have apparently been created by these statements and we'd like to correct them here and now.

The moving of Acadian and Chevy II production is part of the re-alignment of North American production made necessary by Canada's automotive trade agreement with the U.S. Production of other GM models will be stepped up in Canada at the same time as this exchange takes place.

The smart, thrifty Acadian and the trim, value-packed Chevy II will continue to be available throughout Canada.

1967 is proving to be a successful year for both Acadian and Chevy II. We expect 1968 to be an even better year for these great cars!

Drop in and see for yourself why we wouldn't consider discontinuing cars as attractive and economical as Acadian and Chevy II. You'll find Acadian at your Pontiac dealers and Chevy II at your Chevrolet

next time you blow a fuse remember these facts before you blow your top

When a fuse blows it is a signal that you have overloaded part or 700 cal system . . . a circuit.

2 If your home's electrical system is not adequate o serve all your needs you'll notice other symptoms: Lights may dim from time to time, your toaker will take longer to toast, and appliances with motors may ppear sluggish.

Il your home is more than 10 years old, the chances are your electrical system requires up-dating to take care of today's requirements. There are now more than twice the number of appliances used in the home than ten years ago. in the home than ten years ago

It is not necessary to put up with the inconvenience caused by an out-dated electrical system. Have your household wiring examined soon. See how easily your home can be modernized electrically.

You can use as many appliances as you wish at the same time . . . without giving fuses a second thought.

You can add any number of new time-saving appliances to your home.

Your appliances will operate more efficiently and with less strain on motors You can enjoy the convenience of having all the electrical outlets you desire. You will avoid the inconvenience of unsightly extension cords and the attendant risk of overloading the outlet.

5 Additional comforts such as electric heatsuch as electric heat-ing and air-conditioning can be easily accommodated.

6 Modernizing your wir-ing system will make an important difference to the safety and resale value of your

nome.

Re-wiring can be handled with little disturbance to your home and at a cost far less than you may think. Contact a qualified electrical contractor

Okay, Mush, if it will make the or, here goes:

Down New York way a \$1,250,000 mod-eralization and refurbishing program has been launched at Yankee Stadium and will be completed by April 18 when the Yank-ees open against the Boston Red Sox.

And the Icing on this expensive cake will be what Yankees (ans still call the "Mil-lion-Dollar Raby" playing his freshman year at first base.

Mikey wasn't too fussy at first, (no pun intended). He won't be under pressure, says Houk, but if any stress or strain develops, we'll drop it immediately.

Houk and the rest of the Yankee brass are winced it will be a definite step toward the officing of the Yankees if the Mick can make shift.

He is quoted as saying, "I always want to do what is best for the club, and I'll play where Ralph wants me. I still think I'm mere at home in centre field than say other position. There's more reom to run and less werry about fences. Don't forget! I was an inficider when I came up — a shoristop and a long one.

"We want to keep Mtchey lis the line-wy," says Houk. "Aside from his hitting he in travalable to the cloth's morale. Further-more, I don't see why he thouldn't make it at first. We wouldn't expect him to play like a Vic Power. We'd want him to shorten up, play, not too far off the hag. He may find her! like it there."

But another former Yankee great centre-der who once played first base and threw in glove, Joe DiMaggio disagrees.

"It's no good," says Joe, "It will shorten Mickey's career and he can get hurt."

Haak Greenberg the Deiroli Tigers great slugging first-baseman of 25 years ago firmly believes the Mick will establish bin-self on first base. "He's a great little abu-lets and there's no reason why he should not adjust. He wou't have is move around so much at first base."

Investing in Canada

"Saving for a rainy day" is advice which has stood the test of time. It may not be everything, but next to love money has more to do with what makes the world go round

to do with what makes the world go round them anything else.

Similarly, stocks, bonds, properly are valuable assets. They represent collateral, and with rising values are invariably redeemable. for profitable sums the longer they are held. Or you can be like Toronto chief coroner.

Dr. Moriton Shuhman and biry gold through the banks, and acquire works of art by the great masters, and describe the benefits of such investments in a book such as his "Anyone Can Make a Million." Property of course remains 'one of the really gill-edged investments, especially if it happens to be located right in time with a new expressway or high-free, apartment project in any own of the many burgeoning cities of this

continent.

And while investing in yourself and your family you can also invest in Canada, through savings bonds and the like.

Or through Pictou Advocate editor George Cadogans "Buy Canada Cuth" which he has established in the Pictou county town in Nova

Scotta.
The club is the result of Mr. Cadogan taking some of his own advice. He was reading one of his editorials in another newspaper. In the editorial he had advised: "While the enturnial he had advised: "While the government is taking steps toward trying to preserve Canada for Canadians, it won't beip unless we do more for ourselves. We could start right at home with our dimes and our dollars.

"It each Canadian would set aside one dollar a week he could have approximately one billion dollars every 12 months to invest in our country..."

A meeting was called at which Mr. Catogan spoke of the need to set aside money to invest in Canada. "If it's profitable for the Americans, it must be profitable for us," he said

said.

Sixteen persons agreed at a later meeting to form a Centennial Investment Club into which each would put \$5 a month for investment in Canada.

"SWINGERS THE NEW TEE-KAY SHOES & BOOTS Remember what Tee*Kays did for sportswear? Well now they've given ordinary shoes the "boot".

First Tee*Kays revolutionized your sports-wear (No more baggy pants.) And now they're after your shoes. You no longer have to wear ordinary shoes with Tee*Kays sportswear. Because now there's a Tee*Kays shoe.

Like their sportswear, the Tee*Kays shoes were made to swing. Be a Tee*Kays swinger right down to your toes. Now that there's a Tee*Kays shoe. Give ordinary shoes, the boot. From \$4.98 to \$11.98.

PORTS

By Geo. H. Carver

Sports Editor

The delightful production versatility of those re-sponsible for the annual colorful extravagances of the Quinte Figure Shating Club has again come to the fore.

In keeping with the times and Canada's Center-nial Year, the 1967 classic will offer in stating and musical ministure the many phases of life, customs and costume of the country over one hundred years

at automotic. H is sighty called "Century Showcase." And that is not a minomer. Educational as well as entertaking "Showcase." will produce just what the name jupites. Through the artistry of motion, the color of centuring, secret and nutrical backgrounds, it will dipplay in rhytholic sequence "the pigus of the times

The gjub professionals Harry Crossland and Mrs. Bonny Boundy have done an outstanding job individually and collectively, bringing the show through stresuous rehearsal to a high status of perfection.

The music has been carefully selected and taped by former calc by resident Dr. W. B. Beatile who spent many hours taping and co-relating with pauses and announcements carefully spaced.

Adding a brilliant touch of figure skating at its best will be the special guest artists Anna Forder and Richard Stephers, 1966 junior pairs champions and fourth in the North American senior pairs.

The program is colorful and variable depicting many sases of activity from the 1867 square dance to the 67 discotheque.

"The Big Band Era" brings out the fine music those days as does the "Big Musical Era" 1930 uring the male adult skaters of the club; .

Soloists featured are Peggy Foley, Jean Allore, Michael Fitrgibbon, David Beattle, Susan Beattle, Lynanne Rowe, Evelina Palises and others.

Adherence to the styles of the century and fidel-ity of detail with dazzling touches of color feature the contuming of the show. These factors are particularly noticeable in the assembles of the youngsters. Mrs. Molly Burkholder and Mrs. Virginia Semenuk are to be commended on a outstanding effort in this respect.

"Century Showcase" as was revealed at the dress rebearsal last evening is "old" in its production yet is something brand new in entertainment.

The setting will conform to the "100" years of Can-a life from confederation.

Color, music, individual and collective artistry on ne part of the cast and guests mark "Century Show-sto" as a production of outstanding entertainment and deserves capacily houses at each performance.

The extravaganza makes its debut Friday even-of this week with a matince and evening per-nance on Salurday

Can I recover my damages?"

Yes. You probably can.

The Motor Vehicle Accident Claims Fund was set up by the Ontario Government for just that purpose.

Motorists and pedestrians who have suffered personal injury, or damage to property as a result of being innocently involved in an accident with an uninsured motor vehicle, should immediately contact:

Director of Claims,

Ontario Department of Transport, 10 Mary St., Toronto 5, Ontario

☆ Innocent victims of a hit-and run accident can claim personal injury loss from the Ontario MVAC Fund.

but then

You'd expect Pontiac to come up with a nifty new Firebird like this. But did you expect five? When you think about it, no single sports car can satisfy everybody. We thought about it. So now you have five choices. All excellent.

Pontiac always has!

Big car comfort? Sports car personality? Leave it to Pontiac. Style? Look how we've improved Pontiac's famous split grille. In Pontiac's price class of full-size family cars, only Grande Parisienne has hidaway headlights. And how about the faster fastback of Parisienne on your left? Pontiac is styled for today's kind of people. For you.

Pontiac never lets you down. Choice of models? You can pick from more than fifty different Pontiacs and that's not even counting the Firebirds. Take performance, standard features, safety, extra-cost options... from economy and practicality to soft-living luxury, you can count on Pontiac for the best of everything. As always. Including value.

Have you priced a Pontiac lately?

Quinte Bridge

The prospect of the swing bridge linking Belleville with Prince Edward County acries the Bay of Quinte being replaced by a high level bridge similar to the new structure at Descentols to a welcome one.

There is wide support for this project which if realized cannot help but improve communications and boost tourist traffic in the Quinte region.

communications and boost tourist traffic in the Quinte region, provincial member for Prince Edward-Lemox, is in the forefront of rinors to have a high level bridge constructed. He has broached the subject with Highways Minister George Gomme and plans to bring it up in the legislataire.

Mr. Whitney says the construction of a many bridge with presenting the properties of the properties with the properties with the properties of the properties of the properties with the properties with the properties with the properties of the properties of the properties with the prope

Air. Whitney says the construction of a new bridge will necessarily be some years off, but we suggest this is a matter of urgency which should be tackled as foon as possible. Quinte residents using the bridge in both directions are all too familiar with the traffic bottlenecks that occur. Normal daily traffic is heavy during peak hours, and again during summer weekends.

nommer weekends.

There have been accidents on the bridge. One collision last December resulted in tartification of the property of the proper

erident.

That the existing bridge is becoming increasingly inadequate is obvious. It has been in service for three-quarters of a century—since 1881 — the year before Charles E. Duryae claimed he operated the first successful American automobile in Springfield. Mass. In recent years there have been traffic lie-ups while repairs were made to the bridge. Highway tranaporta occasionally have white Highway tran-ied with the fr

ngaway transports occasionally have tangled with the framework of the structure. Main cause of traffic delays of course is the increasing number of pleasure craft using the Bay of Quinte. Cars and transports must wait while the bridge is swung back to permit their passage. And this is a luxury the area really cannot afford.

World Population

The phenomenal growth of the world's population in recent years is one of the principal social issues of our day.

Sixty-six of our export experts abroad are coming home.

You can talk to them personally about your ESP***Export Sales Potential.

Who are they? Sixty-six senior Canadian Government Trade Commissioners from Trade and Commerce offices throughout the world.

Travelling as a group, they will visit eight major Canadian business centres from April 17 to June 2.

We call it "OPERATION EXPORT 1967". You can arrange individual private meetings whether you are now exporting or just interested in exploring the export

possibilities for your product or service. If you have a specific foreign market in mind, we'll reserve an interview with the Trade Commissioner from that particular territory. If you think your product or service has *Export Sales Potential, but aren't

exactly sure where, we'll look into

it and schedule suitable inter views for you. INTERVIEWS-These will take place between 9 a.m. and 6 p.m. each workday. You may arrange as many interviews as you wish. The

only restriction is one half hour per Trade Commissioner. All interviews will be private.

HOW TO REGISTER—Interview forms may be obtained from your Provincial Government trade department, your trade association, Board of Trade, Chamber of Commerce, the nearest Regional Office of the Department of Trade and Commerce, or direct from: Director, Operation

Things Look Bright for Economy Despite Gloomy Forecasts

OHT managers have taken over!

This is a special week. We call it Managers Week.

They've taken over the store. They've planned a terrific thrift event. Storewide values that you'll recognize as "first-aid" for your ailing budget.

Why this special week? First, to express special appreciation to you. Second, to honour our managers.

Third, to give us a chance to prove "We Care".

If you're a regular A&P customer. this week is for you.

If you've never shopped A&P. this is the week to test-shop A&P.

When you see the savings on your total food bill, when you experience the warmth of being cared about, we think you'll come back time and time again. Thousands do.

Quality-Famous A&P Groceries!

Controversy Bubbles Over Dual Reports on Welfare Probe

Ellis Berates Ald. David

MAJORITY REPORT: A Little More Tender, Loving Care

MINORITY REPORT: Review of Tenure of Administrator Needed

By Geo. H. Carver Sports Editor

The Sergies and the Igors colebrated the Rural ry over the ancient bookey exemies from Canada.

to unusue or pound nester, "Too bad." I talked with several heckey men here after the se and while all were hitterly disappointed over outcome and attending circumstances, the general secures was the Nationals did not have what it us to best a team like the Russians outside the ders of Our Lady of the Snew!

Mole-eyed referees have been standard equip-ment in world tournaments since the earliest days when all an official had to do was stand by the benefown nest and count the pucks as they poured in from the Canadian sharpshooters.

I don't hav that.

I think the Whithy Dunlops and the Belleville McParlands of late but costly memory would have beaten this National team four out of five.

Why? Because both the Dunlops and the liface won the right to represent the country by dint of fierce league and subsequent equally flerce Alian Cup battles, not by incentive-less exhibition games played hither and you.

O.K. officer, I'm ready.

Yes, Very definitely! Because Britain is care to make it. It's simply a matter of choice. Some of our passeagers By to Britain for a swinging vacation. Others prefer the things which are uniquely Britain-the friendly pubs, the gentle countryside. The pomp. The pageantry.

HE INTE LIGENCER, WEDNESDAY, MARCH 20, 1867.

Chuvalo Boxes Exhibition MYRTLE BEACH, S.C. (AP). Tuesday night as part of the Canadism' hosvyweight chemical pion George Churako of Toroto tought a six-round exhibition with Gian Carlo Barvatta people.

Should a "non-swinger" visit swinging Britain?

only nine. With Air Canada flies direct to Britain, and this summer we offer you the choice of up to 12 jet services a day from Teronto and Montreal. And there are several flights a week from western Canada; including direct Western Arrow services to London.

but then

You'd expect Pontiac to come up with a nifty new Firebird like this. But did you expect five? When you think about it, no single sports car can-satisfy everybody. We thought about it. So now you have five choices. All excellent.

Pontiac always has!

Pontiac never lets you down. Choice of models? You can pick from more than fifty different Pontiacs and that's not even counting the Firebirds. Take performance, standard features, safety, extra-cost options . . . from economy and practicality to soft-living luxury, you can count on Pontiac for the best of everything. As always. Including value.

Big car comfort? Sports car personality? Leave it to Pontiac. Style? Look how we've improved Pontiac's famous spit grills. In Pontiac's price class of full-size family cars, only Grande Parisienne has hideaway headlights. And how about the faster fastback of Parisienne on your left? Pontiac is styled for today's kind of people. For you.

Have you priced a Pontiac lately?

Heat Too Intense for Firemen to Fight Blaze

Fire of unknown origin yesterday destroyed a barn and three abeds on the farm of Herbert Howard on Highway 33, just north of Frankford. Mrs. Kay Murray who lives across-the road from the Howard farm, called the Frankford fire, department when she noticed the fire about 1 p.m. Corn and hay from last years harvest piled to the barns three storey.

loft made the heat so intense that volunteer firemen, above, could only stand by. Chief Constable Gerald Partington said that he and a group of volunteers freed a number of cattle and pigs. Several cattle in the barn at the time were destroyed.

Loss \$15,000

Grief-stricken 65-year-old Herbert Howard walks away from one of three buildings burned. Buildings and equipment, stored crops and several animals destroyed in the three-hour blaze represented a loss of some \$15,000, according to Mr. Howard. There was no insurance, be add. The wonderful thing about Dry Rye is the fact that it makes every

other ordinary rye taste unusual.

That's how different the taste of Grand Prix is.

You'll suddenly realize that Grand Prix is not an old whisky with

now slogan.

You'll know it is a new whisky with a new taste. A dry taste. A full ye with every shred of sweatness removed.

When you try Grand Prix it could make your favourite rye taste. Or: Grand Prix could become your favourite rye.

monthion (CP) — The dis-every of an apparent addity in the blood of multiple sclerosis patients has thrown one of the first rays of light on the mys-terious disease, for which no esuse and no cure have yet been found.

there was a big enough market for limousines, we'd build limousines"

Earl Brownridge, President of American Motors in Canada, talks about the auto industry and where his company stands.

Today, there are two groups of car buyer To one, a car is primarily a means of transportation. To the other, a car is more of a means of enjoyment.

American Motors is in the unique po of being able to satisfy both groups!

For those who want basic transpo American Motors offers the Rambler American—the original compact car now at a new low price: \$2272 for a 220 2-door sedan, F.O.B. Brampton. At this price, the Rambler American bridges the gap between the too-small imports and the too-costly compacts. To any one of the 100,000 Canadian families caught in this price/size predicament, the new price

structure of the Rambler American means that they can now get the car they need and want at the price they want to pay: a Canadian-built compact car at a price competitive with the imports!

How could we lower our prices when everything else is going up? We stopped to take a fresh look at the whole problem. Then we decided to eliminate the annual face lift. By trimming away the cost of yearly model changes, we could sell the car for quite a bit less. So we got the full support of our dealers to drop the price of a 220 2-door sedan by \$222. And the prices of all other models of the American have come down accordingly.

has already received considerable praise from economists and governments. This is probably the only price reduction of any consequence to happen in years. And we're proud of the fact.

For those who want more than just basic ertation, American Motors offers

Will it work? You bet it will. This is a the luxurious, full-size Ambassador and positive marketing approach and one that the spirited, intermediate-sized Rebel.

The Ambassador and the Rebel are not affected by our policy of stabilized styling AMX will soon become realities. Work is on the compact American. These cars are designed and built to meet the appearance, performance, comfort and luxury require ments of about 400,000 potential Canadian buyers each year. And we'll continue to give those buyers exactly what they want; fresh and new every model year.

Why do we have these two different policies? Because of the different needs of the two different kinds of car buyers. And we're in the automobile business, to satisfy the needs of the consumer and make a profit. And we fully intend to continue to do both. We build and sell sedans, hardtops, convertibles and wagons by the thousands, and if we felt there was a big enough market for limousines, we'd build limousines, too.

This is a strong and growing company and we're really only at the beginning of a very exciting period in our history. In 1965, sales of our full-size Ambassador tripled. In '66, they rose again. For this year, we know they'll go higher, still. And with the new policy and the lower price for the compact Rambler American, we're sure that sales of that model will double, too. That's real growth for our complete fam-

What's coming up from American Motors? That would be telling trade secrets. But this much I can tell you. Idea cars like the

well under way on our cars for the 1970's and they show some of the freshest, most progressive thinking in the industry.

The new policy regarding the comp American is only another of many exciting developments that are going to rock this business. And that bit of "inside" information is not "rumoured" or "reported". It's for real.

DAYS

APRIL

With an Eye on Theatre

Penny Devitt, 16, is working hard at getting into the theatre world. She practises ballet 10 flosus a week, has a serious interest in drama and a fine vag for music. The Vancouver girl feels ballet is worthwhile, if only to help physical conditioning and posture. (CP Photo)

Welfare Report

Members of the committee which has been investigating complaints about the city welfare department are unanimous that there were just grounds for such complaints. There is a conflict of opinion, however, as to the extent of the department's abortoom-ings and how they are to be remedied. This is evident from the minority report of Alderman

Alderman David takes a much more ical view than do Alderman Donald liams, the chairman, and Alderman Douglas Boyle. He goes so far as to suggest the tenure of office of the administrator "be reviewed immediately."

reviewed immediately."
While acknowledging the welfare department lacks qualified personnel and needs to adopt a more humane approach to the problems and needs of those seeking welfare, Ald Williams and Ald. Boyle commend the department "for a most difficult job," and subject to a number of recommendations being carried out, suggest it be given a vote of confidence.

carried out, suggest it be given a vote of confidence.

However, on the issue of the competency of the department to fulfill, its functions, the majority report is subject to the confidence of the department of the confidence of the director and his staff are not professionally qualified, remove the confidence of the director, who is an experienced person, and has rectired out-the-competence of the director, who is a marginated professional qualifications. It is encouraging that the director and his staff are undergoing courses of study which will qualify then professional qualifications. "There is no question of the administrative

"There is no question of the administrative sality of the director and that his department is being well administered. The problem as we it is in a definite lack of communication between the department and the other associations and societies designing with personnel services."

There is some woulty thinking in the above passage, According to the report, the welfare director is not protessorably professorably professorably professorably more than the processor of the department of the department of the three processors of the department of the three processors of the department of the three processors of the department of the three professors of the department of the three processors of the department of

their case that is a second beautiful competence.

Are Ald. Williams and Ald. Boyle attempting to make fish of one and fowl of another in their judgments of the welfare administrator and the members of his staff?

Alderman David has no such doubts. He believes the department personnel, from the administrator down should have the necessary "assistant and the property of the administrator down should have the necessary "assistant and the property of the proper

Their conclusions are likely to provide lively debate when the subject course up for discussion at the next Meanwhile, the recommendations before

nwhile, the recommendations before-Meanwhile, the recommendations before Council are such that an improvement can be expected in the service being offered by the welfare department. Better lisison between the department and other social agencies is one of the committee's recommendations and there is no reason to suppose this cannot be effected, along with the adoption of a more sympathetic attitude toward the requirements

Should a "non-swinger"

visit swinging Britain? Yes. Very definitely I Because Britain is just as lively or leisurely as you care to make it. It's simply a matter of choice. Some of our passengers fly to Britain for a swinging vacation. Others prefer the things which are uniquely Britain—the Iriendly pubs, the gentle countryside. The pomp. The pageantry.

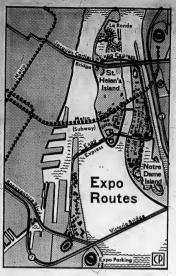

Only BOAC with Air Canada flies direct to Britain, and this summer we offer you the choice of up to 12 jet services a day from Teronto and Montreal. And there are several flights a week from western Canada; including direct Western Arrow services to London.

Plan your trip now. See your BOAC travel agent and he'll get swinging with all the necessary arrangements.
